

Company name : Alstom

Position : Data Analyst

Location : Bengaluru, Karnataka, India · 1 month ago · Over 100 people clicked apply

About the job :

At Alstom, we understand transport networks and what moves people. From high-speed trains, metros, monorails, and trams, to turnkey systems, services, infrastructure, signalling, and digital mobility, we offer our diverse customers the broadest portfolio in the industry. Every day, 80,000 colleagues lead the way to greener and smarter mobility worldwide, connecting cities as we reduce carbon and replace cars.

Could you be the full-time Data Analyst in Bangalore we're looking for?

Your future role :

Take on a new challenge and apply your expertise in data analysis, reporting, and automation within a cutting-edge field. You'll work alongside collaborative, forward-thinking, and innovative teammates. You'll play a pivotal role in ensuring consistency, accuracy, and integrity of Master Data, enabling data-driven decision-making and operational efficiency across the business. Day-to-day, you'll work closely with global teams, cross-functional stakeholders, and enterprise systems, while driving automation and analytics initiatives to enhance business processes. You'll specifically take care of managing critical Master Data processes and developing advanced reporting solutions, but also contribute to continuous improvement through RPA and data science-based innovations.

We'll look to you for:

Driving end-to-end data analysis, automation, and reporting initiatives to support business decision-making and operational efficiency

Managing complex queries and issues, and ensuring timely resolution

Meeting KPIs and SLA adherence, while tracking and reporting daily action status

Coordinating with global teams for data creation and updates across regions

Designing and implementing automation solutions using tools like UiPath, Automation Anywhere, and Microsoft Power Automate

Developing and maintaining interactive dashboards and automated reports using tools such as Microsoft Power BI and Tableau

Performing advanced data analysis using SQL and analytical tools to derive actionable insights

Applying data science techniques like statistical modeling, forecasting, and machine learning using Python or R

All About You :

We value passion and attitude over experience. That's why we don't expect you to have every single skill.

Instead, we've listed some that we think will help you succeed and grow in this role:

Degree in Computer Science, Data Analytics, or a related field

4+ years of experience in Data Analysis, Master Data Management, or Reporting

Strong expertise in data analysis, reporting, and visualization

Hands-on experience with RPA tools like UiPath, Automation Anywhere, and Microsoft Power Automate

Proficiency in SQL, Microsoft Excel, and BI tools like Power BI, Tableau, or Qlik Sense

Knowledge of data science and machine learning concepts

Strong analytical thinking and problem-solving skills

Excellent stakeholder management and communication skills

A proactive and detail-oriented mindset with a focus on solutions

Things you'll enjoy Join us on a life-long transformative journey – the rail industry is here to stay, so you can grow and develop new skills and experiences throughout your career. You'll also:

Enjoy stability, challenges, and a long-term career free from boring daily routines

Work with new security standards for rail signalling

Collaborate with transverse teams and helpful colleagues

Contribute to innovative projects

Utilise our flexible and inclusive working environment

Steer your career in whatever direction you choose across functions and countries

Benefit from our investment in your development, through award-winning learning

Progress towards senior data management or analytics roles

Benefit from a fair and dynamic reward package that recognises your performance and potential, plus comprehensive and competitive social coverage (life, medical, pension)

You don't need to be a train enthusiast to thrive with us. We guarantee that when you step onto one of our trains with your friends or family, you'll be proud. If you're up for the challenge, we'd love to hear from you!

Important to note :

As a global business, we're an equal-opportunity employer that celebrates diversity across the 63 countries we operate in. We're committed to creating an inclusive workplace for everyone.
