

Md Nadeem Ashraf Ansari

Bengaluru, India

✉ nansari.work@gmail.com in [LinkedIn](#)

OBJECTIVE

Results-driven Computer Science graduate specialising in Data Science, with hands-on experience in SQL-based investigation, system troubleshooting, anomaly detection, and stakeholder communication. Adept at translating complex technical findings into actionable resolutions, with a strong focus on delivering reliable operational support and continuous improvement.

EDUCATION

Sai Vidya Institute Of Technology, Bengaluru

2022 – 2026

Bachelor of Engineering (B.E.) in Computer Science (Data Science) – CGPA: 8.99

SKILLS

Languages: Python, SQL, OOPs

Technologies: Troubleshooting & Root Cause Analysis, Log Analysis, Anomaly Detection, Hypothesis Testing, Data Visualization, System Monitoring

Tools: MS SQL Server, Jupyter Notebook, PowerBI, Streamlit, VS Code, Git/GitHub

Core Competencies: Problem Solving, Analytical Thinking, Effective Communication (Written & Verbal), Technical Documentation, Continuous Learning Mindset

EXPERIENCE

Swizosoft (OPC) Private Limited

Feb 2026 – May 2026

Data Analyst Intern

- Investigated data anomalies by querying backend SQL databases, performing root-cause analysis, and documenting resolution steps as structured knowledge records for business stakeholders.
- Troubleshoot data pipeline irregularities using statistical analysis and hypothesis testing; communicated findings verbally and in writing to internal stakeholders across business functions.
- Maintained a knowledge base of recurring data issues, root causes, and corrective action recommendations to support ongoing operational continuity.

Defence Research and Development Organisation (DRDO), Govt. of India

Aug 2025 – Feb 2026

Data Intern – Central Data Processing (CDP) Division

- Selected for stipend-based internship at DRDO – Integrated Test Range (ITR), Chandipur.
- Investigated and analysed radar signal data within the Central Data Processing (CDP) division, performing root-cause analysis on system anomalies to support mission-critical operational accuracy.
- Applied systematic troubleshooting techniques to document performance deviations in signal processing workflows; collaborated with senior engineers to prioritise and resolve technical issues in line with operational timelines.

PROJECTS

Intelligent Business Analytics & Funnel Optimization Platform 

Mar 2026 - May 2026

- Developed a backend analytics platform to investigate user behaviour anomalies, identify drop-off points across business workflows, and generate resolution-oriented insights for operational decision-making.
- Built a rule-based Insight Engine to automatically detect, flag, and triage abnormal system metrics — enabling rapid root-cause identification and structured escalation to relevant stakeholders.
- Authored SQL scripts to query transaction logs and relational database fields, pinpointing revenue leakage and producing structured resolution documentation aligned with business SLAs.

Explainable Anomaly Detection System for Small Businesses 

Feb 2026 - Mar 2026

- Engineered a hybrid anomaly detection and triage system using statistical methods to classify operational issues by severity and urgency, supporting prioritised resolution workflows.
- Performed log analysis and feature extraction to enable systematic root-cause investigation of detected anomalies.
- Deployed a streamlit-based monitoring dashboard surfacing human-readable root causes, recommended resolutions, and real-time system health insights to end users.

CERTIFICATIONS

- **Design Thinking for Innovation** – University of Virginia (Coursera)

VOLUNTEERING

Student Placement Coordinator

Feb 2024 – Nov 2025

Sai Vidya Institute Of Technology, Bengaluru

- Facilitated and connected final year students with recruiters via college placement cell improving industry exposure.

Technical Director – II, Utkarsha Data Science Club

Mar 2024 – Jun 2025

Dept. of CSE (Data Science), Sai Vidya Institute Of Technology

- Organised tech & non-tech events, competitions, and workshops to promote a strong coding culture.

EXTRACURRICULAR ACTIVITIES

- **Salutarian: Best Achiever of the Department, CSE(DS)** for consistent academic excellence throughout the Engineering curriculum (2022–2026).
- Qualified among the **Top 8 Finalist Teams** in the Google Solution Challenge Hackathon 2025 – GDG CITNC.
- Secured **2nd Place** in IEEE TEMS SVIT Unlock 5 Technical Event.
- Secured **1st Place** in the Dept. of CSE (Data Science) SVIT TECHNOVA CHALLENGE 2024 Mini Project Expo.
- Selected as a Finalist in IEEE-SVIT Pitching Hackathon 2024 organized by the Dept. of CSE (AI & ML).
